Quickly search for sounds based on instrument type, timbre, style or articulation from your entire VST library; create immersive, expressive sounds and textures that contain up to 8 separate instruments and patches per VIP Instance; Load up to 4 different VST effects per instrument channel to create the perfect sound; With Pad Chord Progressions and easy-to-use Key Control processors, you can boost your performance.. The most useful thing I found out is that you need to run javascripts from a spontaneous comment on pokecommunity; But even that I can not get a direct answer from Google on how to do it.
